

AMETEKCal

Covers Annual XP2i Calibrations
Up to **Three Years** at a
40% Discount

XP2i Digital Test Gauge

Coverage Details

During the period printed on your certificate, AMETEK and Crystal Engineering will furnish an annual calibration with a detailed report measured over the units specified pressure range. • Instrument adjustment is included and will be performed with an as found and as left certificate.

Exclusions

AMETEK does not cover repair costs, and this offer is not transferable to another unit and/or customer. • Standard terms and conditions apply. AMETEKCal is only available in North America.

Returning a Unit to Crystal Engineering

Obtain an RMA number from our web site, ametekcalibration.com/support/product-return-rma and select the "AMETEKCal" return option. • Be sure to specify the unit is part of the AMETEKCal program. • Ship the unit to Crystal Engineering at the address provided, and include the RMA printout with the shipment. You will be required to pay shipping costs.
