

Temperature Calibration More Than Just An Insert

JOFRA temperature calibrator inserts are designed to ensure reliable and precise calibration results. Available in standard single- and multi-hole configurations or fully customizable options, our inserts are engineered to provide the perfect fit, optimal thermal conductivity, and enhanced performance for your JOFRA calibrator.

Standard Inserts

1. Single-Hole Inserts

- Designed for applications requiring the calibration of a single sensor.
- Offers optimal heat transfer and temperature stability for precise results.
- Ideal for basic calibration tasks and straightforward sensor setups.

2. Multi-Hole Inserts

- Configured with multiple holes to accommodate various sensor types simultaneously.
- Efficient for batch calibrations or when testing multiple sensors in a single process.
- Reduces downtime by enabling multiple calibrations in one cycle.

How to Order

Standard Inserts:

- **Find the Right Insert:** Go to the [product page](#) of your temperature calibrator on our website and locate the relevant datasheet. Each datasheet includes a section under “Specifications” that lists available inserts along with their corresponding part numbers for easy ordering.
- **Place Your Order or Request a Quote:** For standard inserts, please send your order via [email](#) to our customer support team or fill out the “[Request for Quote](#)” form on our website. We’ll respond promptly to assist with your inquiry.

**WHEN STANDARD SOLUTIONS DON'T MEET YOUR NEEDS,
JOFRA OFFERS FULLY CUSTOMIZED INSERTS TAILORED TO
YOUR SPECIFIC APPLICATIONS.**

Customization Features:

- Tailored hole sizes and spacing based on your sensor requirements.
- Materials selected to optimize thermal conductivity and durability.
- CAD drawing can optionally be provided. Reordering the insert will be on a discounted price upon stating the CAD no.
- Our team provides recommendations and advice to ensure you get the best solution for your calibration challenges.
- Multi-hole inserts and tailored designs help streamline your calibration process, saving time and resources.

How to Order

Customized Inserts:

- Download and complete the customized [Special Insert Order Form](#) (PDF) available on our website.
- Submit the quote form to our customer service team via [email](#). Please be aware that all customized inserts must be quoted before ordering.

For assistance in completing the form, please contact our sales team directly via [email](#).

**WITH JOFRA TEMPERATURE CALIBRATOR INSERTS, YOU CAN TRUST IN THE PRECISION,
DURABILITY, AND EXPERTISE THAT AMETEK DELIVERS. ENHANCE YOUR CALIBRATION
PROCESSES TODAY WITH THE PERFECT INSERT SOLUTION FOR YOUR NEEDS.**
